

# SAFETY RECALL

## 19.2 VOLT CORDLESS DRILL DRILL MASTER ITEM# 96526

The metal components of the black trigger switch can wear down over time and with extended use allowing for metal to metal contact, presenting an overheating or burn hazard.

Consumers should **STOP USING THESE DRILLS IMMEDIATELY**. Call Harbor Freight Tools' at **(800) 444-3353** or send an email to [recall@harborfreight.com](mailto:recall@harborfreight.com) Monday through Friday between 8:00 am and 4:30 pm PDT to learn how to replace the drill with a new model drill from Harbor Freight Tools. Please note that the same model drill with a grey trigger switch is not subject to this recall.
